

## 15-TRN2 Submersible aerator

Type	: Tsurumi, 15-TRN2
Applications	: aeration of activated sludge
Motor	: 3 x 400 V, 50 Hz
Power output	: 1,88 kW at 2.850 rpm
Nominal current	: 3,6 A
Weight	: 84 kg ( without cable )
Height	: 700 mm
Diameter	: Ø 420 mm
Coupling	: air inlet with female threaded flange 1¼"
Characteristics	: good mixing, even at depth no haze, nor sedimentation simple installation and maintenance
Equipment	: mounted on foot stand, lifting chain 10 m power cable start - stop control box with thermo-magnetic motor protection, plug 16A 5P silencer with control valve
