

## JS3-240 Electrically driven pump 3"

Curve Q-H

Type	: Varisco JS3-240
Applications	: slightly contaminated water, ...
Motor	: 3 x 400 V ; 50 Hz
Power output	: 18,5 kW at 2.945 rpm
Nominal current	: 32,9 A
Free impeller passage	: Ø 14 mm
Weight	: 420 kg
Dimensions	: 1.500 x 600 x 1.280 mm
Coupling	: suction and discharge side : Perrot quick couplings 3" male
Characteristics	: self priming, after a first filling of the pump casing compact pumpset start/stop panel with thermo-magnetic motor protection plug 63A 5P male
Equipment	: manometer subframe with forklift pockets lifting eye
